PROFESSIONAL SUMMARY

Technology Management (IT) student at Ontario Tech University with hands-on experience in website administration, CRM integration, business intelligence dashboards and web apps, plus leading small teams. Seeking co-op roles in BI, CRM, web and IT.

EDUCATION

Ontario Tech University – Bachelor of Information Technology, Technology Management (Honours) Expected 2027

WORK EXPERIENCE

Website Administrator – *The HOPE Initiative Foundation (Remote)* July 2026 – Present

- Manage and update website content in WordPress, ensuring accuracy, accessibility, and alignment with organizational goals.
- Redesigned the home page around an interactive branch map and built the Core Team and ZIPS team pages.
- Improving search engine optimization (SEO) so the site ranks for youth and charity-related searches.
- Collaborate with internal teams to align web content with programs and outreach; troubleshoot issues and maintain site security.

CRM Consultant (Student Role) | Team Lead – *Shining L.I.G.H.T.E Youth Charity* April 2026 – August 2026

- Led a 3-student capstone team; reworked scope with the client to target her most urgent needs.
- Automated donor thank-yous and receipts, event reminders and a 6-month donor check-in (Zeffy, Mailchimp).
- Built QR-code Google Form sign-ups with auto confirmations; synced Outlook contacts across devices.
- Wrote 3 step-by-step guides so the charity runs every workflow without IT support.

Business Development Representative (Student Summer Role) – *MPN Capital Markets (Remote)* June 2026 – July 2026

- Made outbound cold calls and sent prospecting emails to businesses across Canada and the U.S.
- Qualified leads and identified energy procurement opportunities for senior sales representatives.
- Booked meetings and supported the sales pipeline, tracking leads and logging activity in HubSpot CRM.

Merchandiser – *Liz's No Frills, Whitby* September 2024 – Present

- Deliver customer service, maintain inventory, monitor stock levels, and report discrepancies.
- Rotate product and stock shelves to minimize waste while upholding safety standards with the team.

PROJECTS

IT Helpdesk Ticketing System *(Python · Flask · SQLite · Chart.js)* github.com/bzayed888/it-helpdesk

- Built a ticketing web app with employee, IT agent and admin roles, a priority queue, internal notes and a full change history.
- Tracked every ticket against priority-based SLA targets and built a live dashboard of workload, overdue tickets and on-time rate.
- Secured with password hashing, role-based access, CSRF protection and parameterized SQL; covered by 14 automated tests.

TTC Subway Delay Dashboard *(Tableau · Python · pandas)* Tableau Public

- Cleaned 16,550 TTC delay records from Toronto Open Data, mapping 1,265 station spellings to 70 stations and 140 codes to 10 causes.
- Built an interactive Tableau dashboard showing passengers and the public cause 46% of delay time, versus 9% for train equipment.

WatchList – Movie Tracking Web App *(Python · Flask · MySQL)* github.com/bzayed888/watchlist

- Built a full-stack app to track, rate (1–10) and review movies, with secure hashed logins and session management.
- Designed a relational schema for users, movies, ratings and reviews, with a responsive front end in Flask templates.

Vintage Resale Inventory Management System *(Self-initiated · Excel)*

- Built a formula-driven Excel system tracking 80+ items from purchase to sale, with dropdowns and automatic profit and status.
- Added a dashboard of profit by platform and category, monthly sales and time to sell (80% sell-through, 62% average margin).

LEADERSHIP

Co-founder & Vice President – *Social Networking Association (SNA), Ontario Tech University* September 2022 – April 2023

- Co-founded and grew a student organization focused on community, professional networking, and career development.
- Ran networking events, speaker series and workshops with campus career services and industry professionals; led the executive team.

CERTIFICATIONS

Google Analytics Certification – *Google Skillshop* (Jan 2026)
Getting Started with Cybersecurity – *IBM SkillsBuild* (Jan 2026)
Introduction to Project Management with ClickUp – *Coursera* (Jan 2026)
